

Avery Dennison® Colour Matching Service

With the Avery Dennison colour matching service, your imagination is the only limit to the colours you can explore.

We can match almost any colour you like perfectly, anywhere in the world, and dispatch a sample to you within just 48 hours*.

Read real life case studies on how the Avery Dennison colour matching service is helping companies around the world at: averydennisonideas.com/colormatching

THREE STEPS TO AN AMAZING COLOUR MATCH

- > Get in touch with your local Avery Dennison Sales Representative for all the colour matching support you need
- > Provide us with a PMS/RAL code, or an example of the colour you wish to match
- > In as little as 48 hours*, we will dispatch a sample of your colour match on Avery film. Approve the sample and you'll have your order in no time

* Once provision of PMS/RAL code or receipt of sample material for matching.

The Avery Dennison colour matching service is a global program, enabling us to manage your global projects across a number of different regions.

For projects within a specific region, manufacturing may be subject to differences in roll sizes and services parameters due to local preferences. See below for specific information or contact us for your specific request.
