Avery Dennison Graphics Solutions

Imagine New Possibilities

everywhere
YOU LOOK

Look around – on buildings, in the street, around the corner – it's a safe bet that you'll see Avery Dennison Graphics Solutions at work. Avery Dennison is a world leader in graphic films that identify, promote and inform. We use our extensive experience and creativity to help companies across the world bring brand visions to life in powerful and exciting ways.

Products for every graphic application.

Our high performance, pressure-sensitive materials are found in thousands of products used everyday around the world – in digital, screen print and sign cut applications, such as vehicle, building graphics, marine and fleet graphics, architecture and advertising. Our complete line of products are designed to meet every graphic application need.

These uniquely flexible films in a range of sizes offer best-in-class quality and allow users maximum leverage in highlighting key innovations and new product lines. They also offer:

- > Easy installation and removal
- > Print consistency across all platforms
- > Superior depth of image color, gloss and smoothness
- > Avery Dennison's technical excellence and responsive customer service

Everyday... everywhere.

Avery Dennison is constantly innovating to make graphics more exciting, noticeable and easy to install. Decades of know-how and the latest technologies – like Easy Apply™ RS Technology, our Supreme Wrapping Film™ and Digital Overlaminates – allow us to help our customers consistently transform ideas into impactful messages.

Case Study Vehicle Vinyl

Vehicle Graphics

Marine, RV, OEM Graphics | Safety and Emergency

The highly successful NASCAR racing legend Richard Childress has nine active racing teams. In addition to the actual race cars, all of them had show cars that are constantly on tour at conventions, store openings and car shows. Team graphics also appear on helmets, toolboxes and in the racing pit, all of which posed a challenge to graphics providers. To meet the growing demand, the organization decided to bring its digital media and overlaminates work in house, working with Avery Dennison. The team now uses more than 8,000 square feet of Avery Dennison vinyl each week, leveraging our quick-response service team for advice and support.

“Avery Dennison products work well and their team is committed to quality.”

Nick Woodward, graphics manager at
RCR Graphics Center

Product Recommendation:

Avery Dennison® MPI 1005 Supercast Easy Apply™ RS
Avery Dennison® Custom Color Supreme Wrapping Film
Avery Dennison® DOL 1360 Gloss Overlamine Films

Cars, trucks, buses, vans, trailers, boats – you name it, our removable short- and long-term premium solutions can turn any vehicle into a creative statement.

DIGITAL PRODUCTS

MPI 1005 Series – High Durability Cast Film. White gloss cast vinyl. Ideal for compound curves and over rivets and corrugation.

MPI 2000 Series – High Durability Calendered Film. Flexible, calendered vinyl films offer outstanding durability and outdoor performance for a variety of sign, mural POP & floor graphics.

MPI 2900 Series – Medium Durability Calendered Film. For short to mid term applications, ideal for indoor/outdoor window graphics POP and general signage.

MPI 3000 Series – High-Performance Calendered Vinyl. When you need a high-performance film for a limited time, this film fits the bill. It is designed for consistent digital print performance with great clear images and true color.

MPI Value Film Series – Cost Effective Calendered Film. Specially designed for a wide range of short-term promotional applications with good printability on multiple printer platforms.

SPECIAL PURPOSE

MPI 3709 Perforated Window Film

150 micron white/black perforated vinyl with removable adhesive – 1.5 mm hole pattern with 40% open area for use on short term one-way visual panels.

MPI 6200 Reflective Imaging Film Series

5.5 mil (140 micron) white cast reflective film with a silver permanent adhesive. Designed for vehicle, fleet and general signage.

7110 FasFiti™

High gloss transparent polyester overlaminating film that protects durable indoor and outdoor graphics against damage from graffiti paints and stone chippings. It is especially recommended on public transport vehicles.

SCREEN PRINT PRODUCTS

900 QM Screen Printing Series

High Durability Cast Film. Gloss white/transparent cast vinyl offer outstanding outdoor durability and weather resistance. With excellent conformability it is ideally for rivet, corrugated and other irregular surfaces applications.

800 Screen Printing Series – High Durability Calendered Film. Gloss or Matte finished vinyl fit for most flat or simple curve surfaces and substrates.

400 Screen Printing Series – High-Performance Calendered Vinyl. Gloss white/transparent face film combined with different types of adhesive for using in a wide range of short term promotional screen printed graphics applications.

SIGN CUT PRODUCTS

Supreme Wrapping Film Series – High Conformable Cast Vinyl Films. With a wide variety of color options and finishes, this dual-layer film incorporates color and clear protective layers, providing a smooth, paint-like finish that's both durable and dazzling. Incorporating Easy Apply™ RS adhesive technology, Supreme Wrapping Film allows faster installation and higher-quality results without bubbles and wrinkles.

900 Supercast Opaque Series – High Durability Cast Vinyl Films. The ultimate in conformability and high gloss for screen print and sign cut applications. Color match service is available.

Intermediate Wrapping Film Series – Premium Calendered Vinyl Films. Incorporating Easy Apply™ RS adhesive technology, this series of wrapping film offers easy installation and eliminates bubbles during applications. Recommend for flat and simple curve surface.

HIGH VISIBILITY REFLECTIVE FILMS

HV 1200 High Visibility Reflective

The industry's broadest line of high-performance reflective vinyl films in 17 colors.

HV 1100 High Visibility Reflective

A cost-effective intermediate reflective film in 7 colors for short-term signage.

SPECIAL PURPOSE

Ultra Metallic Film

High quality cast vinyl film with dazzling ultra metallic effects, good conformability designed for curve and corrugated surfaces.

Paint Protection Film (PPF)

High gloss transparent thermoplastic polyurethane film specially designed for vehicle surface protection. Improve vehicle paint color while providing excellent stone-guard, UV and scratch resistance.

Case Study

Interior Skinz

Interior Graphics

POP Displays | General Signage | Window Graphics

Mac Tools, a division of Stanley Black and Decker, is a well-known automotive tool and equipment maker. In 2013, they approached Lizard Skinz, a certified Avery Dennison vehicle wrap installer, with an idea. Mac Tools wanted to wrap tool boxes with customized graphics tied to auto racing icons. Three unique designs were created and sold through retailers and certified distributors. They were an instant hit with customers. Each wrap took just an hour to install, with a single piece of film.

“The repositionability and slideability of Avery Dennison’s Supercast films helped tremendously with the installation.”

Mike Uker, owner and president of Lizard Skinz

Product Recommendation:

Avery Dennison® MPI 1005 Supercast Easy Apply™

Avery Dennison® DOL 1360 Gloss Overlaminate Films

MPI 2000 Series – High Durability Calendered Film. Flexible, calendered vinyl films offer outstanding durability and outdoor performance for a variety of sign, mural POP & floor graphics.

MPI 2900 Series – Medium Durability Calendered Film. For short to mid term applications, ideal for indoor/outdoor window graphics POP and general signage.

MPI 3000 Series – High-Performance Calendered Film. When you need a high-performance film for a limited time, this film fits the bill. It is designed for consistent digital print performance with great clear images and true color.

MPI Value Film Series – Cost Effective Calendered Film. Specially designed for a wide range of short-term promotional applications with good printability on multiple printer platforms.

SPECIAL PURPOSE

SF0-100-103-S Ultra Clear Film

High gloss ultra transparent polyester film combined with clear removable adhesive and PET liner. Printable on UV digital printing system only. It is an ideal solution for window decoration especially when removability is required.

MPI 2611 Wall Film Series

Easy to install and remove, and safe for most walls, this durable calendered film does not require an overlamine and offers excellent ink receptivity.

MPI 3709 Perforated Window Film

150 micron white/black perforated vinyl with removable adhesive - 1.5 mm hole pattern with 40% open area for use on short term one-way visual panels.

SCREEN PRINT PRODUCTS

900 QM Screen Printing Series – High Durable Cast Film. Gloss white/transparent cast vinyl offer outstanding outdoor durability and weather resistance. With excellent conformability it is ideally for rivet corrugated and other irregular surfaces applications.

800 Screen Printing Series – High Durability Calendered Film. Gloss or Matte finished vinyl fit for most flat or simple curve surfaces and substrates.

400 Screen Printing Series – High-Performance Calendered Vinyl. Gloss white/transparent face film combined with different types of adhesive for using in a wide range of short term promotional screen printed graphics applications.

SIGN CUT PRODUCTS

5500 QM Translucent Film Series – High Conformable Translucent Cast Vinyl Films. Outstanding colour fastness, durability and outdoor performance, designed for use in a wide range of long term backlit illuminated signs (rigid and flexible). Color match service is available.

4500 Translucent Film Series – Premium Calendered Vinyl Films. Popular color range, great performance and value make it ideally for intermediate durability backlit illuminated sign applications and as a creative addition to window graphics.

450 General Sign Series – Promotional Calendered Vinyl Films. Gloss and matte finished color films deliver value through excellent performance and concise color range, perfect for exhibition and short-term general sign applications.

900 Supercast Opaque Series – High Durability Cast Vinyl Films. The ultimate in conformability and high gloss for screen print and sign cut applications. Color match service is available.

700 Performance Film Opaque Series – Premium Calendered Vinyl Films. High gloss color films for medium-life indoor and outdoor applications.

500 Event Film Opaque Series – Short Term Durability Calendered Films. Cost effective line in both high gloss and matte finishes for short-term sign applications.

SPECIAL PURPOSE

Decorative Architecture Film (DAF) - High Quality Textured Vinyl. Creates effect of wood laminate, surface walls or natural materials with embossed textured vinyl for internal decoration

Etched Glass Film – High Quality Etched Effect Cast Vinyl. Specially designed for creating etched decorations on glass or windows without the use of etching chemicals.

Frosted Glass Film – High Quality Brilliant Visual Frosted Effect Cast Vinyl. With 6 standard colors it is specially designed to create the image of frosted decorations on glass and windows.

Case Study Outdoor TRENDS

The German furniture chain TRENDS was in the market for an eye-catching, long-lasting finish for its large aluminum roof. Eventually, it settled on Avery Dennison 900 Supercast vinyl film. Installation went quickly, and it's a hit with consumers. TRENDS is now considering similar projects for its other stores.

"Using Avery Dennison 900 Supercast film, the installation was completed very quickly, proving once again that vinyl is quicker to apply than paint."

Martina Gralki, who oversaw the conversion

Product Recommendation:

A wide range of Avery Dennison 900 Supercast films
Avery Dennison Custom Color Matching
